Thank you for purchasing our item. If you have any questions that are beyond the scope of this help file, please feel free contact with us.

#### Change OverView

- Change App ID
- Change App Icon
- Change API Key

Step 1: Open the Android Studio and Open the Project like this.

## Step 2: Change App ID in this place

```
<u>File Edit View Navigate Code Refactor Build Run Tools Git Window Help</u>
                                                                                                                                                                                                               🦟 🔋 <no device selected> 🗸

```

Step 3: Change app name Id in manifest only for android

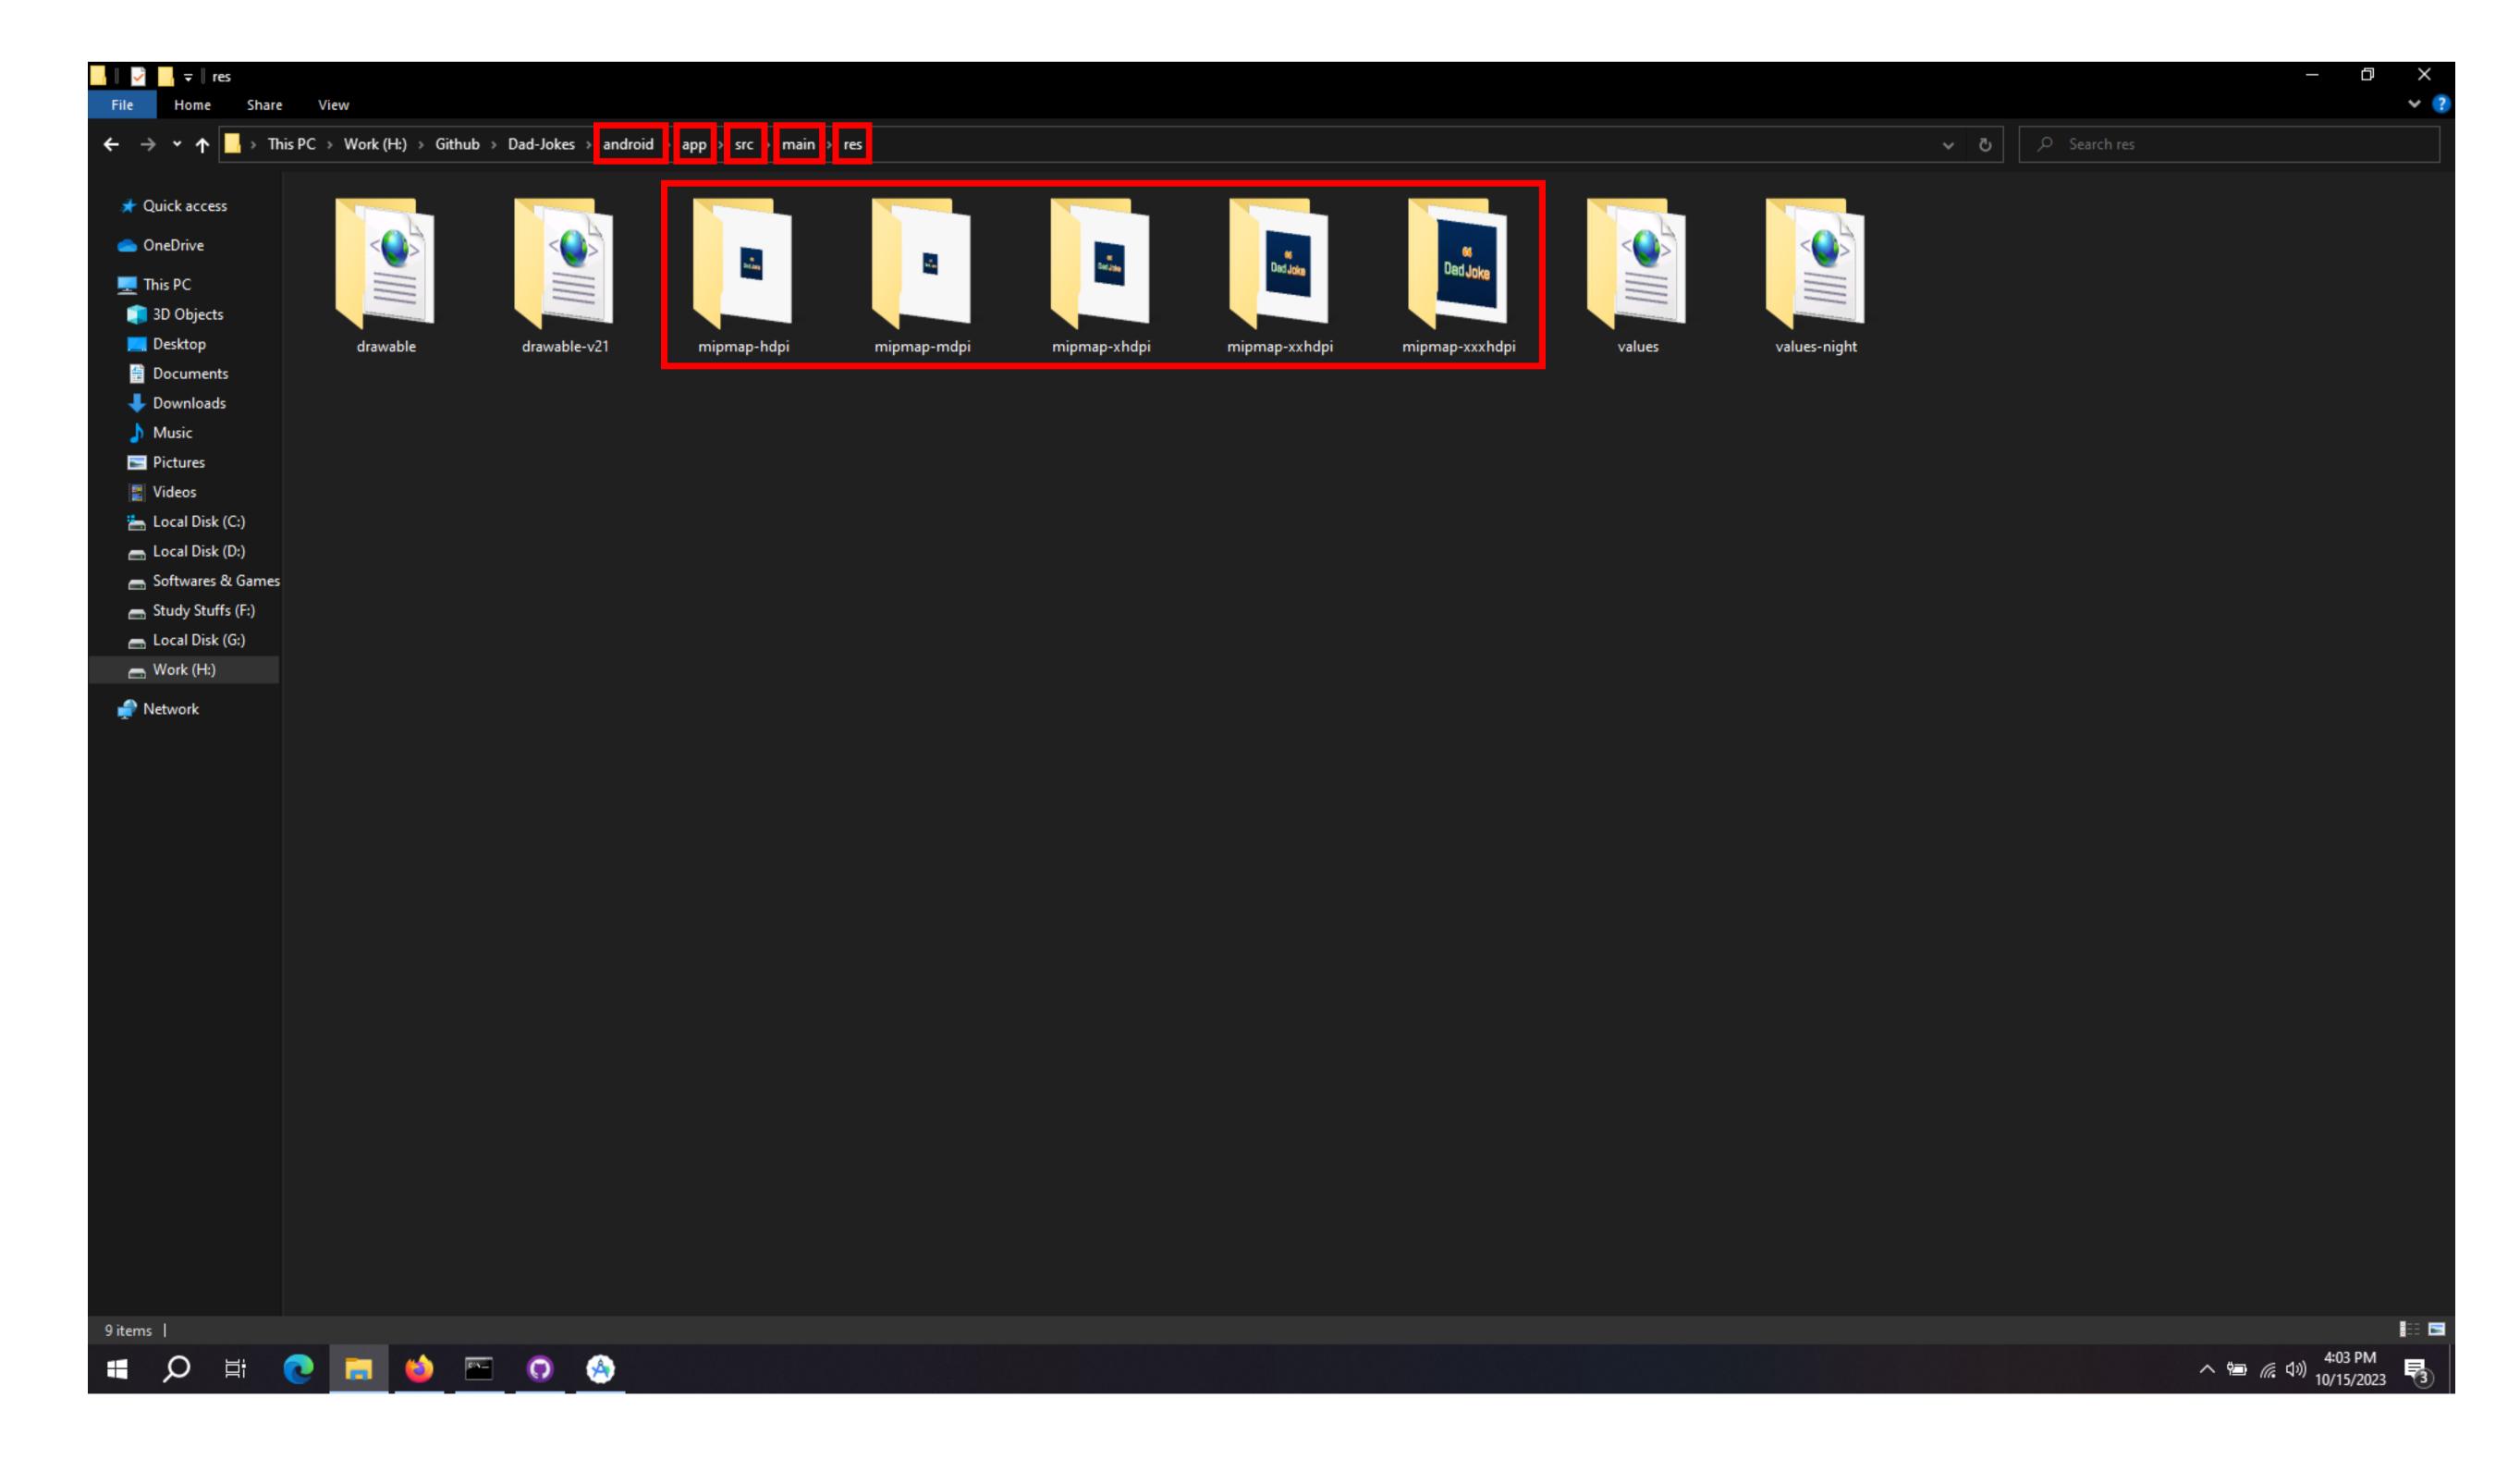

## Step 4: Change ID for iOS

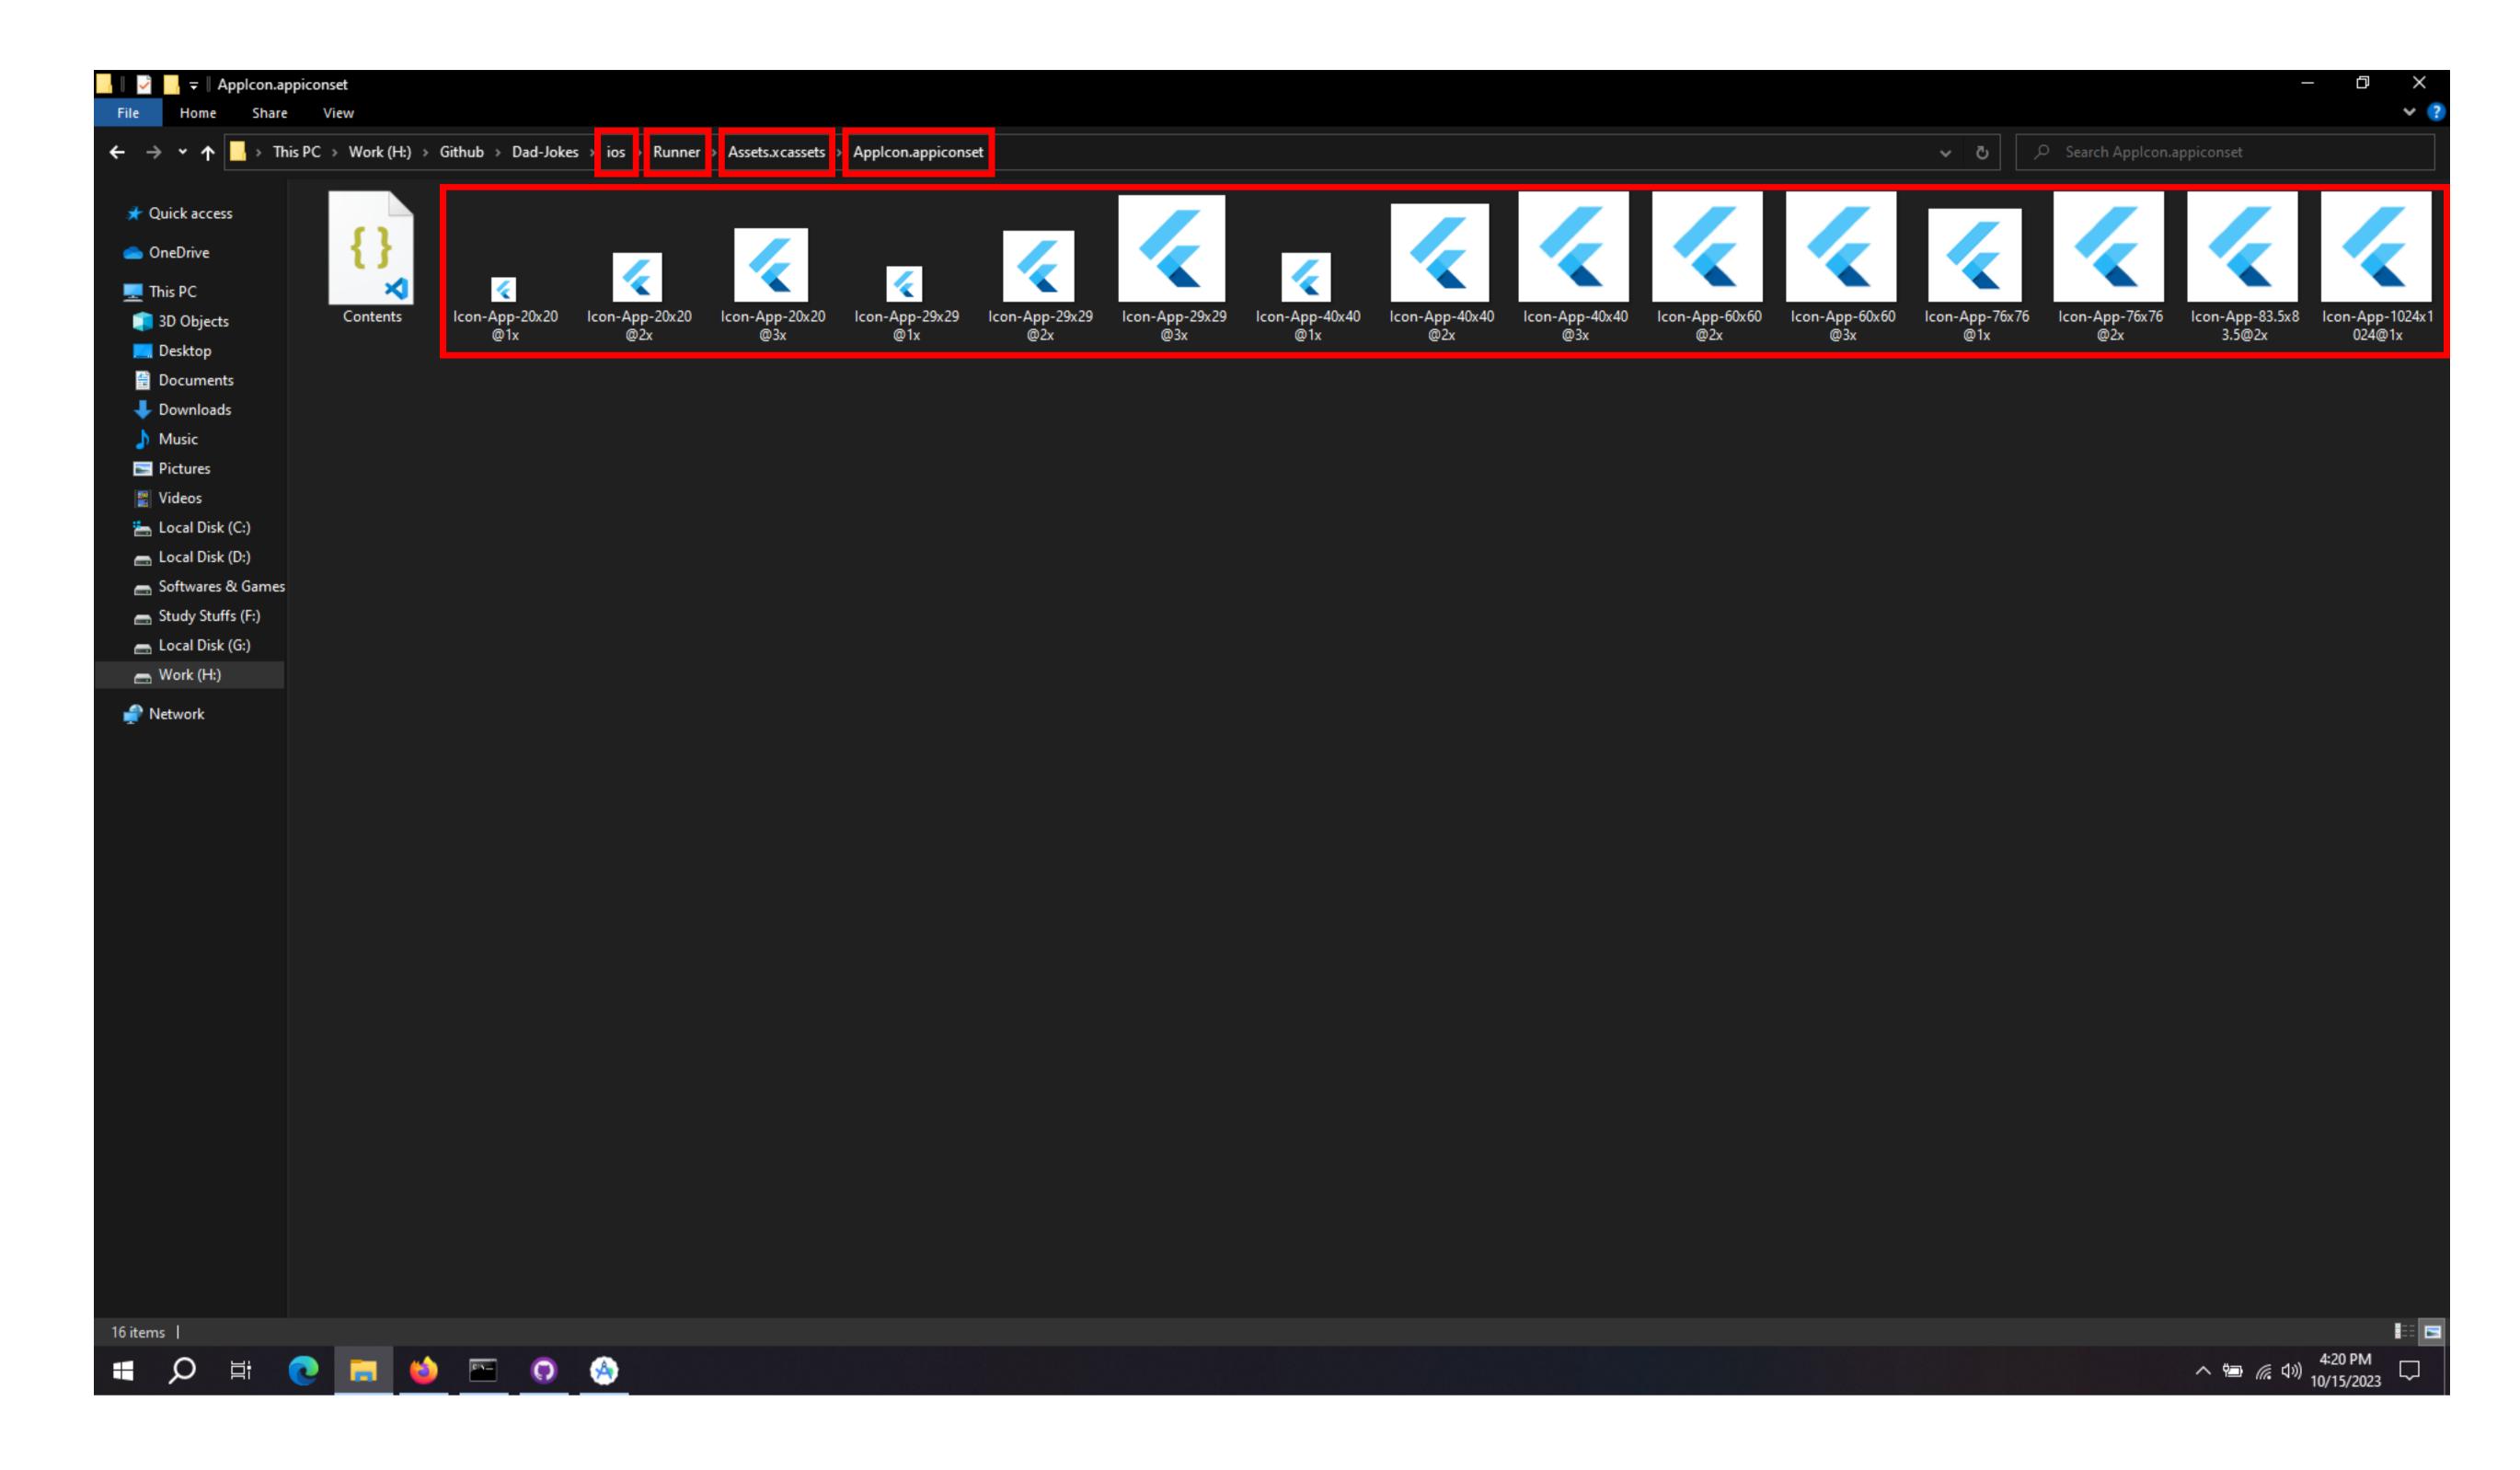

### Step 5: Change App Icon

For android: You just need to replace them with your App Icon

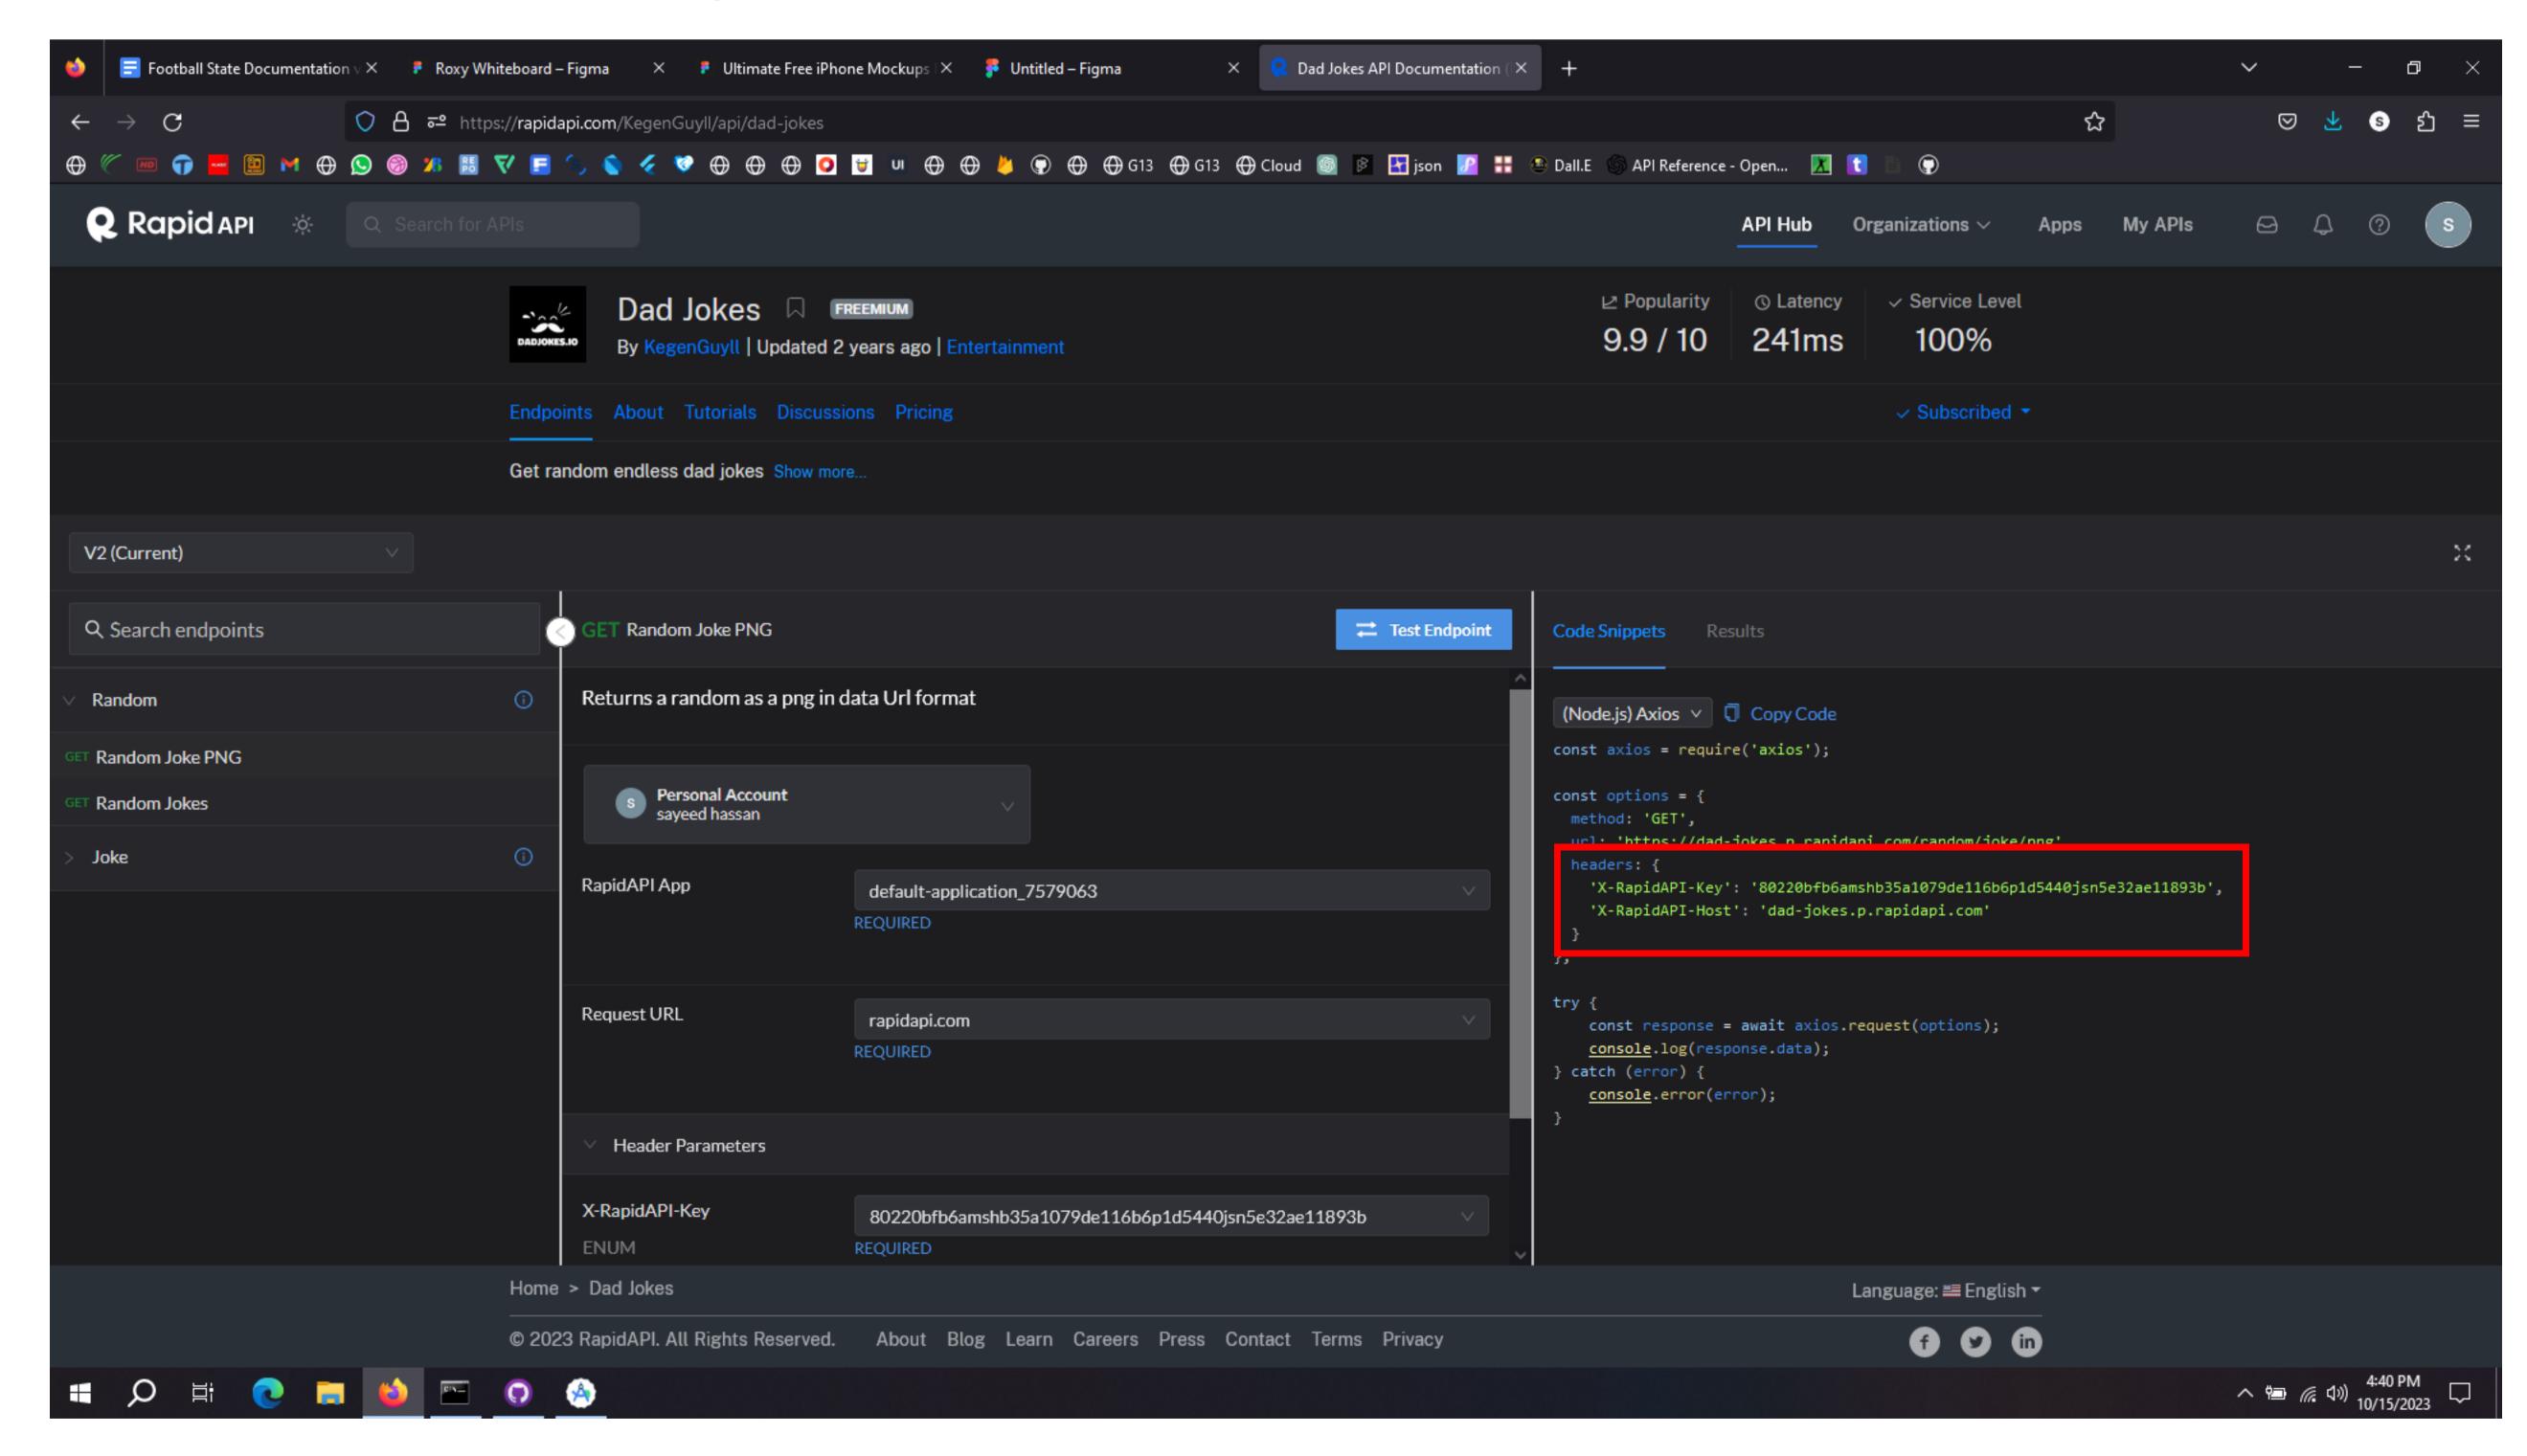

For iOS: You just need to replace them with your App Icon

## Step 6: Change API Key from Website

https://rapidapi.com/KegenGuyll/api/dad-jokes

Step 7: Get the key from here and paste in code

```
